Features:

- Tapered edge flat spray pattern for uniform coverage in spray painting.
- VisiFlo color-coded version available in stainless steel, ceramic and polymer in 80° or 110° spray angles in selected sizes.
- Available in ceramic 80° capacities 01–02 or hardened stainless steel.
- Available in brass, stainless steel, or hardened stainless steel.
- Always double check your application rates. Tabulations are based on spraying water at 70°F (21°C). See pages 136–157 for drop size classification, useful formulas and other information.

VisiFlo® Flat Spray Tips

- Standard version (not color-coded) available in 15°, 25°, 40°, 50° and 65° spray angles in brass, stainless steel or hardened stainless steel.
- See page 35 for TeeJet even flat spray tips.
- Automatic spray alignment with 25612–NYR Quick TeeJet® cap and gasket. Reference page 57 for more information.
- Automatic spray alignment for sizes with 20 through 10 with 25612–NYR Quick TeeJet cap and gasket. Reference page 64 for more information.

How to order:

Specify tip number.

Examples:

- TP8002VS – Stainless Steel with VisiFlo color-coding
- TP11002VP – Polymer with VisiFlo color-coding
- TP11002HSS – Hardened Stainless Steel
- TP8002SS – Stainless Steel
- TP8002 – Brass

Note: Always double check your application rates. Tabulations are based on spraying water at 70°F (21°C). See pages 136–157 for drop size classification, useful formulas and other information.

†Available in brass and/or stainless steel and/or hardened stainless steel.
### Typical Applications:
See selection guide on page 3 for recommended typical applications for TeeJet tips.

### Features:
- Ideal for banding over the row or in row middles.
- Provides uniform distribution throughout the flat spray pattern.
- Easily mounted on spray boom or planter.
- Available with VisiFlo® color-coding in stainless steel or all stainless steel, hardened stainless steel and brass.
