150° Series Stainless Steel and Brass

Suggested for post-directed application with hose drops.

How to order:
Specify tip number and material. Example: TQ150-03-SS – Stainless Steel

Example: OC-16

Example: TQ150-01-SS (100)

How to order:
Specify tip number and material. Example: TQ150-03-SS – Stainless Steel

Stainless Steel 150° Series

Double Outlet Flat Spray Tips

TeeJet Off-Center spray tips are commonly installed in double and single swivel nozzle bodies. Because these bodies are adjustable for angular position, a wide spray swath is easily obtained.

See page 71 for swivels and hose drops.

How to order:
Specify tip number and material. Example: OC-02 – Brass

Example: OC-16

Note: Always double check your application rates. Tabulations are based on spraying water at 70°F (21°C).

See pages 136–157 for useful formulas and other information.

TeeJet®

BROADCAST NOZZLES

How to order:
Specify tip number and material. Example: TQ150-03-SS – Stainless Steel

TeeJet®

Off-Center Flat Spray Tips — Smaller Capacities

Note: Always double check your application rates. Tabulations are based on spraying water at 70°F (21°C).

See pages 136–157 for useful formulas and other information.
